

Alive

Roosevelt

Get me back to where I started out
Think it's time to say I won't stay between the lines
Losing track without her by my side
Now she turns away
'Cause her light no longer shines

Keep me alive, keep me alive, keep me alive, keep me alive
Keep me alive, keep me alive, keep me alive, keep me alive
Keep me alive, keep me alive, keep me alive, keep me alive
Keep me alive, keep me alive, keep me alive, keep me alive

Running back to where it all began
Show me what you got
Never thought to get so lost

Getting hard for me to understand
I know it's been a lot
For the line that we have crossed

Keep me alive, keep me alive, keep me alive, keep me alive
Keep me alive, keep me alive, keep me alive, keep me alive
Keep me alive, keep me alive, keep me alive, keep me alive
Keep me alive, keep me alive, keep me alive, keep me alive

Get me back to where I started out
Think it's time to say I won't stay between the lines
Losing track without her by my side
Now she turns away
'Cause her light no longer shines

And you know that you keep me alive
Through the heat of it all
And you know that you keep me alive
So show me where I belong
And you know that you keep me alive
Through the heat of it all
And you know that you keep me alive
So show me where I belong

Keep me alive, keep me alive, keep me alive, keep me alive
Keep me alive, keep me alive, keep me alive, keep me alive
Keep me alive, keep me alive, keep me alive, keep me alive
Keep me alive, keep me alive, keep me alive, keep me alive

And you know that you keep me alive
Through the heat of it all
And you know that you keep me alive
So show me where I belong
And you know that you keep me alive
Through the heat of it all
And you know that you keep me alive
So show me where I belong
