

# Automatic

Roosevelt

Whatever it takes tonight  
You could be the one to make it right  
I see how you fall  
Remember it all

Whenever you take me high  
You could bring us back into the light  
I see how you fall  
And try to recall

So tell me how to make it last  
I slip into another past  
It's late to rewind  
Just keep me in mind

Reaching out for more  
So don't hold back  
My automatic love  
I'm waiting for your call  
So don't hold back  
My automatic love

Whatever I have to do  
You could be the one to see it through  
Your heart on the line  
A sign of the time

Whenever you'll take the chance  
If only I could get another dance  
Can't see you around  
Nowhere to be found

So tell me how to make it last  
I slip into another past  
It's late to rewind  
Just keep me in mind

Reaching out for more  
So don't hold back  
My automatic love  
I'm waiting for your call  
So don't hold back  
My automatic love

Hold back my automatic love  
Hold back my automatic love  
Hold back my automatic love  
Hold back my automatic love  
Hold back my automatic love  
Hold back my automatic love  
Hold back my automatic love  
Hold back my automatic love  
Hold back my automatic love (Reaching out for more)  
Hold back my automatic love  
Hold back my automatic love  
Hold back my automatic love  
Hold back my automatic love (Waiting for your call)

Hold back my automatic love  
Hold back my automatic love  
Hold back my automatic love
