

Colours

Roosevelt

You fall to the ground just like the sun
Go, 'cause your heart has just begun
You feel this time, with no one by your side
You fall to the ground just like the sun

'Cause when you left, you took your colours with you
To make them last
When you left, you took your colours with you
'Cause when you left, you took your colours with you
To make them last
When you left, you took your colours

You fall to the ground just like the sun
You know that you've always been the one
Bring back this time, when I was by your side
You fall to the ground just like the sun

'Cause when you left, you took your colours with you
To make them last
When you left, you took your colours with you
'Cause when you left, you took your colours with you
To make them last
When you left, you took your colours

'Cause when you left, you took your colours with you
To make them last
When you left, you took your colours with you
