Fall Right In

Roosevelt

So long have I been on the inside
I've been carried away
Left only to find there's a world where I belong

Come follow my lead to the outside
We can call it a day
Won't leave you behind when you come and move along

Bring on the night, all I want is to fall right in
Into the light, all I want is to fall right in

Been turning the out to the inside
I was falling astray
Kept losing my mind
You don't have to be so strong

Come follow my lead to the outside
We can call it a day
Won't leave you behind
Will you come and move along?

Bring on the night, all I want is to fall right in
Into to the light, all I want is to fall right in
Bring on the night, all I want is to fall right in
Into to the light, all I want is to fall right in

Bring on the night, all I want is to fall right in
Into to the light, all I want is to fall right in
