

Falling Back

Roosevelt

We're all falling back to see what I have found
You know I know the way to you
You can't go back to feel how we've begun
You know I'm drifting back to you

We're all falling back to see what I have found
You know I know the way to you
You can't go back to feel how we've begun
You know I'm drifting back to you

We're all falling back to see what I have found
You know I know the way to you
You can't go back to feel how we've begun
You know I'm drifting back to you

We're all falling back to see what I have found
You know I know the way to you
You can't go back to feel how we've begun
You know I'm drifting back to you
