Forget

Roosevelt

Lost in a moment
Try to immerse
Longing for romance
For better or worse

Yeah, you were the symptom
I was the cause
Just trying to look back on
All that I was

Now that I know
I'll forget
All that you said
Trying to let go
And forget
All that we had

The moon is still out there
High up above
I know that you're somewhere
Looking for love

Yeah, you were the symptom
I was the cause
Just trying to look back on
All that I was

Now that I know
I'll forget
All that you said
Trying to let go
And forget
All that we had

All that we've been through
No time for regret
But still coming back to
The day that we met

Yeah, you were the symptom
I was the cause
Just trying to look back on
All that I was

Now that I know
I'll forget
All that you said
Trying to let go
And forget
All that we had

Now that I know
I'll forget
All that you said
Trying to let go
And forget
All that we had
