

# Forgive

Roosevelt

It's way too late to forgive and forget  
Keep wasting all my time  
Holding back all this time  
I knew you were going behind my back  
I'm done

It's too late to turn around  
Your mistakes keep coming back  
It's too late this time

You think you'd notice  
You know that it's over  
You're far too blind to see  
All this time  
Out here waiting all alone  
To make it right, I'm lost

Are we regressing? Are we in love?  
So hard to say when you're never around  
We keep on saying we'll be around  
It's just a lesson we need to learn  
Can't keep expressing  
You're breaking my heart  
It's so depressing how bad it hurts  
I keep on waiting for it to stop  
I think it's too late now  
I'm stuck

It's too late to turn around  
Your mistakes keep coming back  
I can't face you one more time  
It's too late this time
