

Heart

Roosevelt

Go and never stop
Until you're whole
You know I never saw
This way before

'Cause you were the beginning
Got me like no other
You know you got me spinning
Right from the start

'Cause when your heart wears out
I'll be always where you go
'Cause when your heart wears out
I'll be always where you go

Before into the dark
No giving in
So hold me in your heart
Remembering

'Cause you were the beginning
Got me like no other
You know you got me spinning
Right from the start

'Cause when your heart wears out
I'll be always where you go
'Cause when your heart wears out
I'll be always where you go

When your heart wears out
I'll be always there when your heart wears out
When your heart wears out
I'll be always there when your heart wears out

'Cause when your heart wears out
I'll be always where you go
When your heart wears out
I'll be always there when your heart wears out
'Cause when your heart wears out
I'll be always where you go
When your heart wears out
I'll be always there when your heart wears out
