

## Last to Know

Roosevelt

Whenever I'm alone  
Call me back cause I will need you anyway  
It's never what I want  
You're holding on - don't tell me there's no other way  
I'm calling out your name  
Hit me back so we can talk this over now  
It's never been the same  
Oh I can tell it by your face it's over now

So tonight  
Show me where you want to go  
And tonight  
Just don't tell me I'm the last to know  
So tonight  
Show me where you want to go  
Tell me why  
It seems I'm always the last to know

I'm barely on the ground  
All I hope is that my feet won't fail me now  
Remember what we found  
Don't you know we got the time to sort it out  
I'm calling out your name  
Falling back so we can talk this over now  
It's never been the same  
Oh I can tell it by your face it's over now

So tonight  
Show me where you want to go  
And tonight  
Just don't tell me I'm the last to know  
So tonight  
Show me where you want to go  
Tell me why  
It seems I'm always the last to know

We'll be back in the morning light  
So we can do this again  
We'll be back on track tonight  
So we can dance it away  
Take me back to your dizzy heights  
I know from way back when  
I don't wanna attack tonight  
Just put the feeling away
