

Luna

Roosevelt

Whenever you come around
It's falling into place now
So get back on the ground
With a smile upon my face now
So come down

Together we work it out
It's never been this way now
That's what it's all about
So tell me do you stay now
For life

So come on Luna
We could be all you ever want
So come on
Won't you get back sooner
We could be closer to the sun
Come along

So come on Luna
We could be all you ever want
So come on
Won't you get back sooner
We could be closer to the sun
Come along

There's no end in sight
It's tearing us apart now
We can make this right
Forever in my heart now
So come down

So come on Luna
We could be all you ever want
So come on
Won't you get back sooner
We could be closer to the sun
Come along

So come on Luna
We could be all you ever want
So come on
Won't you get back sooner
We could be closer to the sun
Come along

I can see you move
So I can feel you now
I can see you move
So I can feel you now
I can see you move

So come on Luna
We could be all you ever want
So I can feel you now
I can see you move
Won't you get back sooner

We could be closer to the sun
So I can feel you now
I can see you move

So come on Luna
We could be all you ever want
So I can feel you now
I can see you move
Won't you get back sooner
We could be closer to the sun
So I can feel you now
I can see you move
