

## On My Mind

Roosevelt

You know I'm trying my best to love again  
But it's just something hard to find  
You know I'm trying my best to love again  
When only you are on my mind

Drowning in the lights  
It's never been so real  
Just trying to get by  
So help me come alive  
You know make me feel  
Like all we have is tonight

You know I'm trying my best to love again  
But it's just something hard to find  
You know I'm trying my best to love again

Drowning in the lights  
It's never been so real  
Just trying to get by  
So help me come alive  
You know make me feel  
Like all we have is tonight

You know I'm trying my best to love again  
But it's just something hard to find  
You know I'm trying my best to love again

You know I'm trying my best to love again  
But it's just something hard to find  
You know I'm trying my best to love again
