

You remember to fall in love
Make our way to the stars above
Just remember to fall in love again

Hazy clouds in the morning sky
I can tell you still feel so high
We can give it another try again

Tell me now will you stay
Flying over the moon tonight
Give me just one more day
We'll be way outta town tonight, tonight

Setting out at the dawn of day
Promise that you won't turn away
Hold me tight and we feel it all again

Tell me now will you stay
Flying over the moon tonight
Give me just one more day
We'll be way outta town tonight

Tell me now will you stay
Flying over the moon tonight
Give me just one more day
We'll be way outta town tonight, tonight
