

Passion

Roosevelt

I was all run down
My heart was on the line
Heard you're leaving town
If we only had the time

Give me the feel of something new
All it that it takes for us to carry on
Send me your light to make it through
It's been fading for too long

Where's your
Passion
It's just about time to let it go
Open your eyes
Passion
There's something in you I got to know
Just realize
Oohh
Your love will keep us going strong
So I won't ever lose my
Passion
Ohhh
