

# Shadows

Roosevelt

You got it all inside your mind  
Been making it up from time to time  
It's something that you can't leave behind  
I waited too long to get your sign

So take me to a place where we can shine  
I never meant to let you out of sight  
But everywhere I go I seem to find  
The shadows of our love

Shadows of our love  
They're coming back to me  
Shadows of our love  
Oh baby can't you see

You were the one to ease my mind  
Been swayin' around from side to side  
Can I ever live those dreams again  
If only you saw it the same away

So take me to a place where we can shine  
I never meant to let you out of sight  
But everywhere I go I seem to find  
The shadows of our love

Shadows of our love  
They're coming back to me  
Shadows of our love  
Oh baby can't you see

So take me to a place where we can shine...  
But everywhere I go I seem to find...

Shadows of our love  
Shadows of our love

Shadows of our love  
They're coming back to me (coming back to me)  
Shadows of our love  
Oh baby can't you see (baby can't you see)  
Shadows of our love  
They're coming back to me (coming back to me)  
Shadows of our love  
Oh baby can't you see (baby can't you see)
