

# The Devil Made Me Do It

Rory Gallagher

Well, the Devil made me do it, do it, do it  
The Devil made me trip and fall  
The Devil drove me to it, to it, to it  
Till I had no chance at all

What did I do that was so bad  
To go and get myself arrested?  
Just in town to have some fun  
But I ended up in the trash can

There I was in the witness stand  
My eyes turned towards the jury  
Trying to recall what went wrong last night  
But it won't come right back to me

Yeah, the Devil made me do it, do it, do it  
The Devil made me trip and fall  
Well, the Devil drove me to it, to it, to it  
Till I had no mind at all

The lawyer said, "Son, won't you plead the Fifth  
And don't speak unless requested"  
Using all the words at his command  
His skills were sorely tested

Then, to my complete surprise  
They went and called a hostile witness  
The Devil himself, well, he took the stand  
That's where my case rested

Well, the Devil drove me to it, to it, to it  
The Devil made me trip and fall  
Well, the demon drove me to it, to it, to it  
Till I had no chance at all

What did I do that was so bad  
To go and get myself arrested?  
Well, I was just in town to have some fun  
But I ended up in the trash can

There I was in the witness box  
My eyes turned towards the jury  
Trying to recall what went wrong last night  
But it won't come right back to me

Well, the Devil made me do it, do it, do it  
The Devil made me trip and fall  
Well, the Devil drove me to it, to it, to it  
Till I had no mind at all

The Devil drove me to it, to it, to it
