RØRY

Take me back, I fuckin' hate it  
Those days were uncomplicated

My best friend Jenny, I missed her wedding  
I don't blame her at all that she can't forget it  
She drives the same car in the same town  
I heard she got a couple kids now  
My first ever lover, not like the others  
LIT was my favorite band so he sang me a cover  
And I got the mixtape in an old drawer  
What do I keep it for?

Now it's another damn day and another diagnosis  
You get used to the pain when you get my kind of hopeless  
You drown in the weight of it all  
When you're down and there's nowhere to fall

And now Avril's on the radio  
Takes me back to 15 years ago  
Just a small town kid with no regrets  
'Cause I ain't dropped out of uni yet  
When my brother is still in my life  
Ain't lost nobody to suicide  
Take me back, I fuckin' hate it  
Those days were uncomplicated

Dysfunctional family, but I didn't know it  
My dad had some feelings, but he couldn't show it  
I buried my heart in empathy  
That shit's my worst enemy

Now it's another damn day and another diagnosis  
You get used to the pain when you get my kind of hopeless  
You drown in the weight of it all  
When you're down and there's no one to call

And now Avril's on the radio  
Takes me back to 15 years ago  
Just a small town kid with no regrets  
'Cause I ain't dropped out of uni yet  
When my brother is still in my life  
Ain't lost nobody to suicide  
Take me back, I fuckin' hate it  
Those days were uncomplicated

Yeah, yeah, uncomplicated  
Yeah, yeah, those days were uncomplicated

Yeah, yeah, yeah, yeah, yeah  
Take me back, I fucking hate it  
Those days were uncomplicated
