

# Wolves

RØRY

So take me back to December, just us in the house  
You told me, I would forget you, if you could see me now  
Barely breathing, barely sleeping, there's a bullet in my chest  
In the space you left

Hope you don't hold it against me, these things that I've done  
These broken bottles are empty, I drink till I'm numb  
Time is coming, can't outrun it, all the things I never said  
The things that I can't forget

Gonna fight every night  
Gonna bring you back to life  
Take me soul, take my bones, I would die

I hope you know, I'd throw myself to the wolves  
I hope you know, I'd fight with God if I could  
I'd get high, wreck my life  
For a second of your time, to bring you home  
I hope you know

I'm in an ocean of anger, and that's how I'll drown  
'Cause missing you is the anchor, that's dragging me down  
Out of reasons, now I'm screaming, begging Jesus in my head  
Take me instead

I hope you know, I'd throw myself to the wolves  
I hope you know, I'd fight with God if I could  
I'd get high, wreck my life  
For a second of your time, to bring you home  
I hope you know

I hope you know  
I'd get high, wreck my life  
For a second of your time, to bring you home

I hope you know  
I hope you know
