Go girl you bad as fuck, ass fat and you tatted up  
I can't lie, baby I might die, if I leave alone I can't pass it up  
There's no competition, no catching up  
Them other girls be mad as fuck  
You slave for it, they pay for it  
They made for it, ain't adding up  
You hit the stage with your ass out  
Work hard till they pass out  
You the one that they ask bout  
They steady bringing them racks out  
You work out till you pass out  
Work hard till you pass out  
Work hard till you pass out  
Show them hating hoes what that cash about

Go girl, it's movie time  
Go and do your thang  
I wish I had a camera and a film crew, I do  
Cause I do the major pain  
Drilling like a hole in the ground  
I lay that pussy in a hole in the ground  
A killer not a word or a sound  
Or a beat the... wet wet, cigarella could have drown  
I can tell you work overtime for that body  
Overtime for that profit  
And damn girl I got it  
I mean damn girl you got it, ha  
Say you putting girls to shame  
Ben franks to blame  
You go crazy for that mula  
I give a fuck about no fame  
I give a fuck about no chain  
Doesn't get in no chain  
And I guess that makes me the main  
Cause I fucked before I even knew your name  
Now I just say
