

Go First

Rose Cousins

I want you to go first
It's only getting worse
Either way it's gonna hurt
But I want you to go first

I need you to leave
I'm not the one to make you happy
There's no room to breathe
I need you to leave

I could hold you all night
It wouldn't make it right
I have held you all day
It doesn't go away
It's when I hold you close
That's when it hurts the most

I have stayed too long
Everything I do is wrong
I am not that strong
I have stayed too long

I could hold you all night
It wouldn't make it right
I have held you all day
It doesn't go away
It's when I hold you close
That's when it hurts the most

I want you to go first
Let the memory disperse
Either way it's gonna hurt
But I want you to go first
