

# Go

Rose Cousins

I can feel in the cold and the loaded guns  
With the war machine and the beating drums  
Don't wanna live that way  
Don't wanna live that way

On your lips lies the kiss of a broken dream  
In your hands is the heart and a closing seam  
Don't wanna live that way  
Don't wanna live that way

Open hands let go  
Go, go

I can see in the still in the waters now  
How the rhythm change in the moving bow  
It's day to day  
It's everyday

It was yours, it was mine and we let it go  
Our love was lost but now we know  
That we were brave  
But we can't stay

Open hands let go  
Go, go  
Go, go  
Go

Open doors and curtains parting  
As we untie this thing we started  
Two hearts beating  
Two souls breathing

Never mind those days of sorrow  
Living on the hope we borrow  
Remembering  
You will love again

Open hands let go  
Go, go

Go (all the nights that we ever drum)  
Go (pass the days when our love was young), go  
Go (all the nights that we ever drum)  
Go (pass the days when our love was young), go

Go (all the nights that we ever drum)  
Go (pass the days when our love was young), go
