

# Good Enough

Rose Cousins

For I've come riding on my old farm pony  
And I'm looking for another heart like mine  
If I were to buy you that bucket of gold  
Would you think that I am good enough?

I've got a big book of questions in my back pocket  
And I'm looking for some of the answers from you  
If I gave you the key, would you choose to unlock it?  
Would you tell me I am good enough?

I've got a heart, that goes without saying  
Hearts are for hope and mine has been praying  
That since I've come to you, this sadness ain't staying  
'Cause you might think I am good enough  
You might think I am good enough

If I asked you, would you make me a star?  
Would you marvel my fingers as I played my guitar?  
If I started singing, would you sit and listen?  
Do you think that that would be good enough?

Well, I've got a heart, that goes without saying  
Hearts are for hope and mine has been praying  
That since I've come to you, this sadness ain't staying  
'Cause you might think I am good enough  
You might think I am good enough
