I Don't Care

Rose Cousins

He said too much for me to understand
Right now all I can see is the man
Who's walking away while I say I don't care

He said too much for me to understand
Right now all I can see is the hand
That's waving goodbye while I say I don't care

Someone was just as lonely as me
I watched closely for a change of heart
Now mine's the only pain I can see
And I'll protect it if it kills me

I don't want to be sorry for what I can't help
It's just the way love goes
How does it get down bit by bit
It's no fun anyway it's just day to day

Someone was just as lonely as me
I watched closely for a change of heart
Now mine's the only pain I can see
And I'll protect I will protect it if it kills me

You don't want to be sorry for what you can't help
That's just the way love goes
