

## That's How Long (I've waited for your love)

Rose Cousins

Every note that ever played  
Every wish to hear my name  
Every earthworm in the rain

Every sleep on every night  
Every heartbeat laid out side by side  
Every time that I held back a cry

Table full of broken bread  
Laughs abound and nothing said  
And we'll do this until we're dead

Hand upon the torn screen door  
Knees upon the cold wood floor  
A hymn upon the sandy shore  
And everything that came before  
Today and maybe ever more

That's how long I've waited for your love  
That's how long I've waited for your love  
That's how long I've waited for your love  
That's how long I've waited for your love
