

## Clear and Simple

Rose Tattoo

There's a feeling growing deep inside of me  
It's the only part of man we all like to see  
So let the goodness in man triumph once again

We'll fight fury, gonna stop the mighty storm  
We gotta plant new seeds, we need to help it grow  
To let the goodness in man triumph once again  
And let the loving in man ease the pain away

You know it's just that simple  
You know it's just that clear  
From where I stand it's simple  
We gotta start to care

For this world of ours, hand in hand and heart to heart  
We gotta give more love and let the caring start  
To let the goodness in man triumph once again  
And let the loving in man ease the pain away

You know it's just that simple  
You know it's just that clear  
From where I stand it's simple  
We gotta start to care  
You know it's just that simple  
You know it's just that clear  
From where I stand it's simple  
We gotta start to care

(You know it's just that simple)  
(You know it's just that clear)  
From where I stand it's simple  
We gotta start to care, hey yeah  
(You know it's just that simple) it's just that simple  
(You know it's just that clear) oh, so clear  
From where I stand it's simple  
We gotta start to care, hey yeah  
(You know it's just that simple) just that simple  
(You know it's just that clear) it's just that clear  
From where I stand it's simple  
We gotta start to care
