

On The First Warm Day

Rosemary Clooney

On the first warm day
On the first warm day

On the first warm day
On the first warm day in May
I'm gonna come a-callin'
And bring you a big bouquet

On the first warm night
That the moon is shining bright
We won't feel much like talkin'
So kiss me and hold me tight

Then we'll climb the hill
And there beneath the cherry tree
Where all is still
You'll say marry me
Oh, marry, marry me

The first warm day
On the first warm day in May
And we'll teach the birds and bees
A thing or two
Oh, see how I love you

Then we'll climb the hill
And there beneath the cherry tree
Where all is still
You'll say marry me
Oh, marry, marry me

The first warm day
On the first warm day in May
And we'll teach the birds and bees
A thing or two
Oh, see how I love you

On the first warm day
On the first warm day
On the first warm day in May
