

# Saturday Night Is The Loneliest Night Of The Week

Rosemary Clooney

Saturday night is the loneliest night in the week  
Cause that's the night that my sweetie and I  
Used to dance cheek to cheek  
I don't mind Sunday night at all  
Cause that's the night friends come to ball

And Monday to Friday's a gas  
And another week goes past

But Saturday night is the loneliest night in the week  
I sing the song that I sang for the mem'ries I usually seek  
Until I hear you at the door  
'Til you're in my arms once more  
Saturday night is the loneliest night of the week

Hey now, Saturday night is the loneliest night of the week  
And I sing the song that I sang for the mem'ries I usually seek  
Until I hear you rap on the door  
Until you're in my arms once more  
Saturday night is the loneliest night of the week
