

Couldn't you see it coming?  
Predict this, anticipate  
As many as a million warnings  
Failures, protected by the state  
Gone like a [?]  
Deals made against our will  
We sit back and let this happen  
Time is never now, never

Dark times  
This is hard times  
Sometime ago the charge was set  
Ready to explode  
There is a lesson here  
But you're too late to learn it  
A shock to the system  
You're welcome, you've earned it

Dark times  
This is hard times  
Sometime ago the charge was set

Ready to explode  
Dark times  
This is hard times  
Sometime ago the charge was set  
Ready to explode

Dark times  
This is hard times  
Sometime ago the charge was set  
Ready to explode

You can do what you like  
'Cause I don't care anymore  
You can do what you like  
'Cause I don't care anymore  
You can do what you like  
'Cause I don't care anymore  
You can do what you like  
'Cause I don't care anymore  
Anymore
