Rosetta Stone

A waking kiss
A promise made
Another stranger in your bed
Draws me away
Something to behold
A symptom of the flesh
Fire for the soul
A gift from the heart
It will leave you cold
Singled out
For your infection
Chasing games
To gain attention

You're far, far, far, far deeper than you'll ever know (×2)
Heed this...
He'll take your spirit and soul

I'm not angered, I'm just tired of this
You know how it is
Divided I stand, it's not what it seems
But on the other hand
To kiss and tell
A strange twist of fate turns heaven to hell
Intended for me
But in the cold light of day
It's easy to see that...

You're far, far, far, far deeper than you'll ever know (×4)
Heed this...
He'll take your spirit and soul
