Evolution

Rosetta Stone

Sense of fear and a feel of unease
Open your eyes, bring your diseased
Shake the walls down, find a solution
Destroy the heart of evolution
I've been many times all around our world
Change the channel as our dreams unfold
Ignore the standards, it's never the same
Exercise your right
It's never too late to believe
Never too late, never too late to believe
Never too late, never too late to believe

Sense of fear and a feel of unease
Open your eyes, bring your diseased
Shake the walls down, find a solution
Destroy the heart of evolution

I've been many times all around our world
Change the channel as our dreams unfold
Ignore the standards, it's never the same
Exercise your right
It's never too late to believe
Never too late, never too late to believe
Never too late, never too late to believe

It's just among us and take me back
Natural sons is what you lack
No discretion, no fear or compassion
The loss of life is an added attraction
To you
The loss of life is an added attraction
To you
The loss of life is an added attraction
To you
