

Twisting - there's flash on the floor
I need healing to have and to
Bleeding with a weakness of mind
Distort the power of will
To have and to hold
And twisting - there's flash on the floor
I need healing to have and to take faith in me
Faith in vain
A hit for the heart like dust for the pain
Take faith as a hit
Faith as a miss
A kiss for the system with a reason for this

But to take a chance for hours like these
A hit for the heart like dust for disease
So lonely now
Its cold on the line
Kiss for the man whose heart plays with time

Tonight its truth for a generation
Supply this fire with the tinder it needs
To hide the shame of all creation
Takes control and bleeds

Well take faith me
Take faith in vain
A hit for the heart like dust for the pain

Take faith as a hit
Faith as a miss
A kiss for the system with reason for this, now
I need healing - to have and to hold
I need healing - to have and to hold, now

Tonight its truth for a generation
Supply this fire with the tinder it needs
To hide the shame of all creation
Takes control and bleeds, to try

Well take faith in me
Take faith in vain
A hit for the heart like dust for the pain
Take faith as a hit
Faith as a miss
A kiss for the system with reason for this, now

But to take a chance for hours like these
A hit for the heart like dust for disease
So lonely now
Its cold on the line
Kiss for the man whose heart plays with time

Take faith in me
Take faith in vain
A hit for the heart
Like dust for the pain
