

What Is the Point

Rosetta Stone

[Intro - 1:29]

It's not a question of race
Other than a rat race
Drags you from your home and from your life
From your workplace

Don't plan ahead
Wasting alone instead
That's my best guess
God, they made a mess
Seeking asylum far away
What is the point of anything?
What is the point of anything?

The question needs a yes or no
No room to take a count or show
Frustration at incompetence
The bones we fell, and made no sense

Don't plan ahead
Wasting alone instead

That's my best guess
God, they made a mess

Seeking asylum far away
What is the point of anything?
What is the point of anything?
What is the point of anything?
What is the point of anything?
What is the point of anything? Anything?
What is the point of anything? Anything?

What is the point of anything? Anything?
What is the point of anything? Anything?
What is the point of anything?
What is the point of anything?
What is the point of anything?
What is the point of anything?...
