

## 7 Minutes

Rosette

When I first saw you  
I never thought that  
I would be here, with you  
When we start kissing you give me reasons  
To believe in love, who knew  
And you know they gon' talk about us  
You don't have to leave your room  
Under the covers  
Making love to my lover  
Take me to heaven, mmm...

You can't see when you're blinded by the light  
And I can't help but be riding

Cause I just need 7 minutes with your body  
I'm in heaven  
Cause I just need 7 minutes with your body  
I'm addicted, lemme ride it

That's not rain, it's the way that you're making me feel  
I thought I told ya, pull me in closer  
You'll be mesmerized where my treasure lies  
Pull me in harder, I want you  
Go deep deep deep inside

You can't see when you're blinded by the light  
And I can't help but be riding

Cause I just need 7 minutes with your body  
I'm in heaven  
Cause I just need 7 minutes with your body  
I'm addicted, lemme ride it

I never knew that I could handle you  
[?]

Cause I just need 7 minutes with your body  
I'm in heaven  
Cause I just need 7 minutes with your body  
I'm addicted, lemme ride it
