

# Paradise

Rosette

Baby, don't feel all alone  
Cause I will be right by the phone  
Just call me, mmm  
Mmm, maybe we'll fly some where warm and shady  
That is all I want with you  
Lets go hide away love

It feels so good this paradise  
I look into your ocean eyes  
This feels so good, yeah  
Feels so good  
You make me wanna love my life  
I want to dance the night away  
It feels so good, yeah  
It feels so good  
You wanna make me feel alive  
I want to watch the sun rise  
It feels so good  
It feels so good

Don't worry, we're not far from home  
Just hurry and fall deep in love with me, mmm, yeah yeah  
Oh, like when I feel so free  
And I don't need anybody  
But you lets go hide away

It feels so good this paradise  
I look into your ocean eyes  
This feels so good, yeah  
Feels so good  
You make me wanna love my life  
I want to dance the night away  
It feels so good, yeah  
It feels so good  
You wanna make me feel alive  
I want to watch the sun rise  
It feels so good  
It feels so good
