Single For The Summer

Rosette

I'll do what I wanna do, do who I wanna do
I'm single for the...

Taste the salt that's on your skin
From the dimples in your grin
It's the bathing suit you're in
And I'm so sober, I'm so sober, yeah
Hair tangled in the wind
There's an ocean we can swim
Don't you make me push you in
'Cause I'm not sober, I'm not sober, no

Miami heat can't be beat, 85 degrees
Promises that we keep till we fall asleep
Move your hips, lick your lips, give it up to me
But I want you to know

I'm single for the summer
I'm single for the summer
Do what I wanna do, do who I wanna do
I'm single for the summer

We can be more than just friends
Let's be lovers, play pretend
Hope this night will never end
Hold me closer, come in closer
Captivated by your touch, oh
But I wouldn't call this love, no
You're nothing more than just a crush
So pull me closer, this isn't over

Miami heat can't be beat, 85 degrees
Promises that we keep till we fall asleep
Move your hips, lick your lips, give it up to me
But I want you to know

I'm single for the summer
I'm single for the summer
Do what I wanna do, do who I wanna do
I'm single for the summer

The sun comes up, baby
So now it's time you leave
Say c'est, c'est la vie
'Cause there's no you and me

Miami heat can't be beat, 85 degrees
Promises that we keep till we fall asleep
Move your hips, lick your lips, give it up to me
But I want you to know

I'm single for the summer
I'm single for the summer
Do what I wanna do, do who I wanna do
I'm single for the summer

Do what I wanna do, do who I wanna do

I'm single for the summer
