Can't help but see the devil on the page, angel on my shoulder
Sometimes I think I'm getting wiser, maybe I'm just older

'Cause I see it in the rain
I wanna see it in the sun
I had a peaceful life but I'm living on the run

Better the devil you know than the one you don't
They say it's all a show but it's all I've ever known
When life gives you lemons, you can make a lemonade
Make me lemonade, I want to see it in the rain

'Cause I can see it in the rain
I wanna see it in the sun
I had a peaceful life but I'm living on the one

Can't help but see the devil on the page, angel on my shoulder
Sometimes I think I'm getting wiser, maybe I'm just older

'Cause I see it in the rain
I wanna see it in the sun
I had a peaceful life but I'm living on the run

Better the devil you know than the one you don't
They say it's all a show but it's all I've ever known
When life gives you lemons, you can make a lemonade
Make me lemonade, I want to see it in the rain

'Cause I can see it in the rain
