

This Before

Rosie Lowe

Baby, all we do is treat each other nice
I was thinking maybe we're the 1 in 4
We can take our own time

'Cause I never felt a love like this before
No, I never been in love like this before

Baby treats me right, when I'm in a mood
Coffee in the bedroom, never comes too soon
Don't be shy, all we do is treat each other nice
Yeah, don't think twice, all we do is treat each other nice

'Cause I never felt a love like this before
No, I never been in love like this before

I've been sitting on my reasons, overthinking all the things yo
u do
I'd be riding on my ego if I told them all things you do

'Cause I never felt a love like this before
No, I never been in love like this before
'Cause I never felt a love like this before
No, I never been in love like this before

My heart barely beats
You know how it is
You know how life can turn love
Get burnt up
Been flying too close to the sunlight
You know how it feels
When both your wings come melting off
Just when you think it's a breeze love
A freedom
He turns the heat up
