

## Better Nights

Ross Copperman

Don't leave before the party's started  
Don't quit on what you've never found  
You don't want to miss the perfect golden hour  
It's gonna come around any second now

We're right on the edge, oh  
Trust me I know

That we've all seen better days  
And we've all seen brighter lights  
But the more the sunset fades  
It only makes for better nights

Don't cry just because it's over  
Don't hide just because you're lost  
You don't have to act like it never happened  
What if this is not everything you thought

The harder it gets yeah  
The more that I know

That we've all seen better days  
And we've all seen brighter lights  
But the more the sunset fades  
It only makes for better nights  
Better nights

The harder it gets yeah  
The more that I know

That we've all seen better days  
And we've all seen brighter lights  
But the more the sunset fades  
It only makes for better nights  
And we've all seen better days  
And we've all seen brighter lights  
But the more the sunset fades  
It only makes for better nights
