

Don't Look Down

Ross Copperman

When did heaven lock out
Feel like a king without a crown
Crying diamonds to a cloud
I'm in heaven but my feet won't lift off the ground

I know it's hard but it's out of control
Shot at the dark now
I'm losing my glow
Don't panic your heart love
It never gets easier to find your way out
Don't look down

Sometimes it hurts like hell
Sometimes I lose myself
Throwing diamonds in a well
Sometimes it hurts but I go round and round this carousel

I know it's hard but it's out of control
Shot at the dark now
I'm losing my glow
Don't panic your heart love
It never gets easier to find your way out
Don't look down

Sometimes you lose but it's out of control
Lasso the moon, now you're losing your glow
Don't panic your heart love
It never gets easier to find your way out
Don't look down
Don't look down
We're all figuring it out
