

Effortless

Ross Copperman

Open windows, and the sun shines
Carousel rides and the blur of lights
Feathers hanging, out there on the wind
Don't know why it's so easy, it's just is

You and me, you and me
You and me, we're effortless

Wheels in two lanes, I can't help but roll
And feeling grass blades always seem to grow
Strings and pine toss, fall into a song
Hearts, they always find a way to hum along

You and me, you and me
You and me, we're effortless

Like flowers and rain drops
First nights and a long shots

You and me, you and me
You and me, we're effortless
