

Goodbye

Ross Copperman

Underneath the oak tree
Shadows dance around
Like our memories
Remember what you told me
Life can tie you down
Maybe we'll find peace

There's always tomorrow and time heals the sorrow
But tonight I'm just a ship lost in the sea

I don't want to say goodbye
With the morning sun shining in your eyes
Love this moment, feels so right
The kind of beautiful, that I can't describe
I keep holding on
To what we're losing
Holding on
Cause I don't want to say goodbye

I just wanna hold you
Darling one last time
Look you in the eyes
Trace every step we've taken
Cause you're always gonna be
Forever in my mind

There's always tomorrow and time heals the sorrow
But tonight I'm just a ship lost in the sea

I don't want to say goodbye
With the morning sun shining in your eyes
Love this moment, feels so right
The kind of beautiful, that I can't describe
I keep holding on
To what we're losing
Holding on
Cause I don't want to say goodbye
