

Lighthouse Shine

Ross Copperman

I'm barely holding on tonight
Hoping for a prayer or a sign
How did I ever get this far away?
When all I ever needed was to stay

So come on light me up
And turn my fears to dust
And be my solid ground
And pull me out of this ocean
Keep on leading me
To where I need to be
Because I'm following
So shine like a lighthouse, shine

Shine
Yeah, shine

With you I can weather any storm
When my whole heart is tattered and worn
Yeah you're the love that brings me to the shore
When the darkest days are knocking on my door

So come on light me up
And turn my fears to dust
And be my solid ground
And pull me out of this ocean
Keep on leading me
To where I need to be
Because I'm following
So shine like a lighthouse, shine

Shine

I know where I'm going now
If I could just keep holding on tonight
Tonight

Come on light me up
And turn my fears to dust
And be my solid ground
And pull me out of this ocean
Keep on leading me
To where I need to be
Because I'm following
So shine like a lighthouse, shine

Shine
Yeah, shine
Like a lighthouse
Like a lighthouse
Just shine, yeah
Yeah, shine
Just shine
Yeah, shine
Shine
Yeah, shine
Like a lighthouse

Like a lighthouse
Just shine, yeah
Just shine
Just shine
Like a lighthouse
Like a lighthouse...
