

## Live On

Ross Copperman

The ones we lost, we gain  
Even though we never feel the same  
Promise you the circle never will be broken  
Even though they change we know it's certain  
We're ready to set fire to the rain  
To ignite and really live again  
Throw ourselves into the ocean  
Turn our hopeless into hoping

Just live on, just live on  
Always running, running from the sun  
Let's find love in the break of dawn  
Let the stars in our eyes all night up to the morning  
Just live on, just live on  
Who said youth is wasted on the young?  
How could they know what we live for?  
Just live on, just live  
Oh, oh, oh  
Just live on  
Oh, oh, oh  
Just live on

Just live on 'cause no one's ever really gone  
Every memory we've got is one we should remember  
Look at just how far we've come  
Need you to know it, no matter how far away you go  
We both look up for the same stars in the sky at night  
And the same sun in the morning, just live on yeah

Just live on, just live on  
Always running, running from the sun  
Let's find love in the break of dawn  
Let the stars in our eyes all night up to the morning  
Just live on, just live on  
Who said youth is wasted on the young?  
How could they know what we live for?  
Just live on, just live  
Oh, oh, oh  
Just live on  
Oh, oh, oh  
Just live on  
Oh, oh, oh  
Just live on  
Oh, oh, oh  
Just live on
