

Skyscraper

Ross Copperman

This love doesn't tarnish with time
Doesn't rust, doesn't fade
Doesn't stop, doesn't change
My heart can't believe that you're mine
Every beat, it's confused, how'd it end up with you?

I go to sleep drunk on your kiss
And I wake up still sure that I'm dreaming
All I'm really sure of is
I'm never losing this feeling

I'm never done falling
It's a skyscraper high kinda love
Never done falling
Rest of my life still wouldn't be enough
I don't wanna lose this feeling
Taking me through the ceiling
I'm never done falling
It's a skyscraper high kinda love

Darling it was always you
You're the light in the dark
Where I end's where you start
A song can't sum up what you do
Ain't a chorus or verse that puts you into words

I go to sleep high on your kiss
And I wake up still sure that I'm dreaming
All I'm really sure of is
I'm never losing this feeling

I'm never done falling
It's a skyscraper high kinda love
Never done falling
Rest of my life still wouldn't be enough
I don't wanna lose this feeling
Taking me through the ceiling
I'm never done falling
It's a skyscraper high kinda love

Down, down, down, down
Never going down
Down, down, down, down
Never going down

I'm never done falling
It's a skyscraper high kinda love
Never done falling
Rest of my life still wouldn't be enough
I don't wanna lose this feeling
Taking me through the ceiling
I'm never done falling
It's a skyscraper high kinda love
