

## Someone to Someone

Ross Copperman

Can't you feel like this?  
Yeah I've tried my best  
Every song I've songed  
Till there's nothing left

Cause you take my hand  
And you turn my soul  
Can't you feel this heart?  
That you still don't know

Staring at the sun here we're all the same  
Finding to be and if they may just the name  
Everybody wants one everybody wants one feeling  
Million different reasons for the lonely while  
Hoping there's an answer in the blinking eyes  
Everybody wants to be someone to someone

Oh we walk on hards  
Like there only say  
And we live no place  
For one more chance

And we pull the lights  
And we turn back round  
We tell ourselves  
It's over now

Yeah oh yeah everybody wants, everybody wants  
To be someone to someone (9x)

Can't you feel like this  
Yeah I've tried my best  
Every song I've songed  
Till there's nothing left
