

Trust You

Ross Copperman

Sabotage is a monster
Finding reasons that won't work
I'd rather quit while I'm ahead
Tell me you wanna hold me
Tell me you wanna know me
What if I'm not what you'd expect

'Cause I've got a ribbon
A heart band aid
Take a leap of faith, yeah

The only way to know if I can trust you
Is to trust you, trust you
Baby, I'm scared out of my mind to
Trust you, trust you

What if I give you my dreams
Put my heart on my sleeve
And you just leave me out to dry?
No guarantee that you'll stay
Hey, maybe that's the point
And if you ever say goodbye
At least I tried it

But also what if you're
The best thing that ever happened to me in
In my whole life

The only way to know if I can trust you
Is to trust you, trust you
Baby, I'm scared out of my mind to
Trust you, trust you

Leave my past in the past
Come on baby show me that
I can trust you, trust you
I can trust you, trust you

Here's my heart and soul
Here's all my control
Here's my red and gold
So here's my heart and soul

'Cause the only way to know if I can trust you
Is to trust you, trust you
Baby, I'm scared out of my mind to
Trust you, trust you
