Ross Copperman

Oh, I can't believe what we have done
We both choose the battle lines, but neither of us won
And now you've gone and left me with no choice
It's lonely and I'm hallow here
Just the sound of my own voice
Calling back, calling back

Well, you took the best of me Every part and every piece Guess I knew it all along Like a melody and song We belong, we belong

Don't know if I'll recover from this fall I've been too long without you now It's getting harder to recall The way we were just you and me back then When we were only whole We were unbroken Put us back, put us back

Well, you took the best of me Every part and every piece Guess I knew it all along Like a melody and song We belong, we belong

We could dig, we could dig, we could dig down deep And with our mistakes, we could bury these We could dig, we could dig down deep We can start again, why couldn't we?
[x2]

Well, you took the best of me Every part and every piece Guess I knew it all along A melody and song We belong
