

# White Flag

Ross Copperman

I'm moving from this spot  
Do you hear every word I've got to say  
I do the best that I can  
Some who I used to be  
When you fell in love with me  
I'm here to make you understand

I'm not raising my white flag  
Giving up this fight  
Let in my heart that you go tonight  
I'm not losing no hope yet  
We could start over  
I know there's a chance for us if we try

I'm not raising my white flag, white flag  
I'm not raising my white flag, white flag

We could fly, and we could fall  
We could shatter and lose it all again  
And it's a chance that I'll take  
I know the truth is hard to hear  
But if you listen I'll try to make it clear  
So let me say what I have to say

I'm not raising my white flag  
Giving up this fight  
Let in my heart that you go tonight  
I'm not losing no hope yet  
We could start over  
I know there's a chance for us if we try

I'm not raising my white flag, white flag  
I'm not raising my white flag, white flag  
I'm not raising my white flag, white flag  
I'm not raising my white flag, white flag

I'm still here  
I'm not moving  
I'm still here  
Just let me prove it  
So many reasons to try  
So many pieces to back right

I'm not raising my white flag, white flag  
I'm not raising my white flag, white flag

I'm not raising my white flag  
Giving up this fight  
Let in my heart that you go tonight  
I'm not losing no hope yet  
We could start over  
I know there's a chance for us if we try

I'm not raising my white flag  
Giving up this fight  
Let in my heart that you go tonight  
I'm not losing no hope yet

We could start over

I know there's a chance for us if we try

I'm not raising my white flag, white flag

I'm not raising my white flag, white flag
