

Break It Up

Rossa

Love [?] what's that about
Always yelling who be back and down
Take it easy, no one's really now
Get to work it out

Are we breaking up?
Cause I don't want to
Have you had enough?
Cause when I'm with you
Every word's a punch
Miss your kiss, your touch
It's not right to fight this much
Better break it up

Better, better
Better, better
Break it up
Better, better
Better, better
Break it up
Better, better
Better, better
Break it up
Better, better
Better, better
Break it up
Better, better
Break it up

We used to be caught up in paradise
Saw the way you love me in your eyes
Has it gone cause we both realize
We can't let this die

Are we breaking up?
Cause I don't want to
Have you had enough?
Cause when I'm with you
Every word's a punch
Miss your kiss, your touch
It's not right to fight this much
Better break it up

Better, better
Better, better
Break it up
Better, better
Better, better
Break it up
Better, better
Better, better
Break it up
Better, better
Better, better
Break it up
Better, better
Break it up

Let it down, your love
Take me in your arms
Don't make this harder

Gotta make this out

Are we breaking up?
Cause I don't want to
Have you had enough?
Cause when I'm with you
Every word's a punch
Miss your kiss, your touch
It's not right to fight this much
Better break it up

Better, better
Better, better
Break it up
Better, better
Better, better
Break it up
Better, better
Better, better
Break it up
Better, better
Better, better
Break it up

Better, better
Better, better
Break it up
