

One Night Lover

Rossa

Dance floor was rocking, I watched you move around
Can't take my eyes off a beautiful stranger
This ain't stopping, the music's pumping louder
It feels like a touch from an angel

I couldn't believe that you came here alone
Looked at me and tell 'em you ain't coming home
Cos my halo thrown, and it's you that I want
Then I turned around and told him

Stop stop baby
I don't wanna come between your love
You and her
I got this feeling up in here
But I can't tell you how it feels again
Oh oh oh

You could be my one night, one night lover
You could be my one night, one night love
You could be my one night, one night lover
You could be my one night, one night love

He's like something in your life
That you can do without
But you're risking everything
Fell victim to a man
And I don't understand
The feeling that's within
Just to get a night with you

Couldn't believe that you came here alone
Text your girl and tell her you ain't coming home
Got my halo thrown, and it's you that I want
And I turned around and told him

Stop stop baby
I don't wanna come between your love
You and her
I got this feeling up in here
But I can't tell you how it feels again
Oh oh oh

You could be my one night, one night lover
You could be my one night, one night love
You could be my one night, one night lover
You could be my one night, one night love

I see shawty in the bare back
She ain't talking she just wanna dance
And all the playas trying to tap that
But tonight I'm gonna make sure they don't stand a chance
Cos I know what she really want
And I most probably got what she need
Tell her the best thing for you right now
Is most definitely some time with me
You probably think that I got a girl
Those is rumors you know how they hating

You should forget all that you've heard
And how I'm delegating my relations
Got you on speed dial on my phone
And on my mind ain't no other
Don't really know what the future holds
But let's start by being one night lovers
One night lovers, one night lovers

Stop it, stop it baby
I don't wanna come between
You and her
I got this feeling
I got this feeling up in here
But I can't tell you

You could be my one night, one night lover
You could be my one night, one night love
You could be my one night, one night lover
You could be my one night, one night love
You could be my one night lover...
