

## To Communicate

Rostam

I changed my mind about something  
I racked my brain, I thought it thin

You said a discrepancy in style  
May account for a conflict between us  
You said a discrepancy in style  
May account for conflict but

I was not  
Able to communicate  
Before  
No, I was not  
Able to communicate  
Before

So I change my mind  
You change yours too  
Now the future's bright  
Horizon blue

You said a discrepancy in style  
May account for conflict between us  
You said a discrepancy in style  
May account for conflict but

I was not  
Able to communicate  
Before  
No, I was not  
Able to communicate  
Before

But I am now, are you listening?
